

5,500 OPEN COMMERCIAL REPLACEMENT ANGUS HEIFERS

Vermilion Ranch

Spring Commercial Female Sale

THURSDAY, MARCH 21, 2024

Heifers sell at the South Pryor Development Center - 12:00 NOON
Located 18 miles East of Billings on Highway 87.

Welcome to Our Spring Commercial Female Sale!

We are once again offering a tremendous group of open replacement Angus heifers. We work hard to make sure they are REPLACEMENT QUALITY! We have a "Program" that has been in place for many years.

A high percentage of these heifers are sired by or out of Vermilion genetics. These heifers have been sorted three times ahead of the sale for quality and disposition. They are all identified as to the ranches they came from and have never been rebranded. This will be the front end of around 10,000 head that we stated with. I would really encourage you all to try and make it to the heifer sale held at our South Pryor Development Center.

As the years go on, we have learned what our customers want in these replacement heifers. The "Program" is to put the best ones in the sale. These heifers come from prominent commercial breeders who have done their homework when buying bulls and developing their cowherds.

Once the heifers arrive at South Pryor Development Center, we administer Vira Shield 6 +VL5, Cydectin Injectable, and Clean-Up II Pour-On. We also bangs vaccinate the heifers, they are tattooed, and an EID bangs tag is put in. In the spring before the sale, we treat all heifers for lice.

These heifers have been developed in large lots that afford them plenty of exercise. We have sorted them back to their origin and will sell them to you that way.

Our South Pryor Development Center is a one-of-a-kind facility. The heifers are penned to their lot numbers and can be viewed anytime prior to the sale.

On sale day, we will have 15 head of heifers from every lot in display pens at the sale facility and those heifers will be in the sale ring when we sell their lot. The balance of the heifers will remain in their development pens. As always, the heifers will sell on a GATE CUT BASIS. Two large TV screens will also display each lot as they sell.
